Meditsinskiy Rabotnik

Moscow, 10 June 1951

Grigoriy Samuilovich Matul'skiy, Chief of the Department of Polar Medicine of the Arctic Institute, Candidate of Medical Sciences, died at the age of 67 after a serious illness.

G. S. Matul'skiy began his work in 1910 as District Physician of Buzuluk Zemstvo.

From 1926 on, he worked at the People's Commissariat Public Health, ~~of the RSFSR~~, and then at the Methods Station of the Main Sanitary Administration of the Ministry of Communications, where he worked systematically and persistently on questions connected with medical methods and the theory of Soviet medicine.

Matul'skiy wrote 25 scientific works. A great contribution to health protection in railroad transport is his dissertation "Principles of Maintenance and Standardization of Development of a Network of Therapeutic Prophylactic Institutes in Railroad Transport".

In the following years, Matul'skiy was an energetic organizer of a new field of Soviet health protection - polar medicine.

Matul'skiy's services to the fatherland have been recognized by government rewards.

His memory will long remain in the hearts of all who knew him.
